
URL Radar Free Version Crack +

URL Radar Free is a accurate web traffic scanner that allows you to scan through the thousands of URLs from the search engines. Create a custom dictionary and apply to the whole text. After that URL Radar will sort the URLs in this custom dictionary, and it'll show you which pages are more interesting than others. URL Radar can also be used to manually scan through a URL and enter it into the URL Radar custom dictionary. You can use URL Radar for simple URL sorting or for complicated tasks, and it supports multi-page directories sorting. Keywords are also included in the result: keywords in the URL "hits" are grouped by the URL. All this is provided by our URL Radar Free version. URL Radar Free can filter... Web Traffic Analyzer is a powerful tool for analyzing and modifying the parameters of Web pages. Site Analyzer allows you to view the contents of any URL, including images, Flash, javascripts, css and other files.
